

Williamson Tea
FOUNDATION

Impact Report

*The Williamson Tea Foundation
cares about our farms and the
people who grow our tea.*

Smallholder farmers

The Williamson Tea Foundation provides support to our communities and those around our farms by investing in education, healthcare, conservation, climate action and community projects.

As a public limited company representing thousands of shareholders and stakeholders throughout Kenya and the Williamson Tea Foundation ensures that every cup of Williamson Tea helps sustain our farms and communities for generations to come.

Primary school children

Tea plant nursery

Over the last decade alone our Foundation has achieved the following;

Green Leaf purchased from

10,000
Smallholder Farmers.

3.5 Million
tea bushes subsidised to local
smallholder farmers.

330 hectares
of primeval rainforest and indigenous forest
Preserved.

4 Primary Schools Built.

2.5 MW
of Solar Panels installed to power two of our factories with
renewable energy.

8 Community Water Tanks Built.

33 Classrooms Built.

15,000 
cases seen per year in our
Health Clinics.

29,000
indigenous trees planted in the last
Two Years.

80,000 
Rural People Supported through Smallholder Development Programme.

Smallholder green leaf collection shed

The Williamson Tea Foundation's focus has traditionally been on education and health care and over the years we have provided schools, clinics and other amenities to the many thousands of families that call our farms home so that they can continue to prosper.

Over the last decade the Foundation has expanded its support to include projects outside of our farms that benefit the wider community. Markets, bridges, classrooms and water projects have all been successfully completed, however it is the development of a sustainable rural economy through our Smallholder Development Programme that has been most successful in transforming lives. Market led trade will always be the most powerful factor in encouraging long term sustainable development and something the Foundation has been instrumental in creating.

The Williamson Tea Foundation is proud that our projects and impact strategies meet and support the following United Nations Sustainable Development Goals.
